THE SD

The Byrna SD (Self Defense) is the successor to the popular Byrna HD. It has been re-engineered for optimal performance. Powered by compressed air (CO2), the Byrna SD shoots .68 caliber round kinetic and/or chemical irritant projectiles that can disable a threat from up to 60 feet away. It is an incredibly powerful and non-lethal self-defense weapon. The Byrna SD is not classified as a firearm, therefore does not require a permit or background check to own. Must be 18 or older to purchase.

THE SD XL

The SD XL has the innovations of the new SD, an increased shot capacity of up to 30 rounds, the convenience of an available 12-gram CO2 cartridge, an increased average projectile speed of up to 300 FPS, and an ergonomic honeycomb grip for better control. The SD XL also has improved sights for faster target acquisition, a straight trigger with a 6.5 lb. pull-weight on the second shot, a 19MM barrel extension with a factory-installed Boost adaptor for optimal performance, and an ambidextrous safe/fire switch for easier toggling between left-handed and right-handed operators.

for the Byrna TCR
Pro Bundle:*

(1) Byrna TCR Launcher
(1) 7-Rd Magazine
(1) 12-Rd Magazine
(1) Discreet Carry Case

**Bundle does not
include CO2 or Ammo*

THE TCR

The new, high performance Tactical Compact Rifle, or TCR, is designed to be a versatile and reliable magfed launcher for home-defense and recreational use. It's designed to deliver a realistic, military look that's easy to customize and/or upgrade via four standard Picatinny rails. The TCR also includes folding front and rear sights, a vertical front grip, an 11" high-performance barrel, and comes complete with 7-round and 12-round extended magazines plus a fully padded carbine carry case. Byrna's TCR is truly the most versatile magfed, less-lethal launcher available today.

MISSION-4

The new Mission-4 Launcher is based on the AR-15/M4 Carbine platform and system used by agencies worldwide. Previously available only to law enforcement agencies, the re-engineered Mission-4 by Byrna is the ultimate high-capacity solution to defend your property or just having fun in the backyard. The Mission-4 uses 88g CO2 cartridges, allowing the unit to always be ready without concern for high-pressure air tanks leaking or needing to get them refilled. Capacity of 50-60 shots per 88g CO2 canister (depending on environmental conditions). With an integrated air-through stock, proven in-line bolt system, and durable aluminum construction, the Mission-4 is the most versatile mission-adaptable option for all less-lethal operations.

BAD GUY REPELLENT™

Byrna Bad Guy Repellent quickly incapacitates an assailant by attacking the central nervous system, impairing vision, restricting breathing, and causing the nose to fill with mucus and skin so it feel like it's on fire. The effective range of its stream spray is 15-20 ft. for maximum stopping power and less cross-contamination. Attacker Tracker UV Dye lasts up to 48 hours so law enforcement and victims can identify the bad guy(s). The oil-based formula contains 1.4 Major Capsaicinoids, the maximum allowed by law. Each Byrna Bad Guy Repellent canister comes with an attachable clip for quick access on belts, backpacks, purse straps, etc. The Expiration Date is 4 years from date of purchase.

BANSHEE

The Byrna Banshee is a military-grade, 130dB personal safety alarm capable of producing an ear-piercing alert that draws attention to you and thwarts potential attackers. The Banshee is durable and water-resistant. It's packaged with a carabiner that attaches it to backpacks, purse straps, and belt loops for quick access during emergencies. It comes with replaceable batteries that last up to 1 year and is ideal for students, adults, seniors, and outdoor enthusiasts.
